

Question 1: Mindfulness in Action

Scenario:

Priya is in a high-stress meeting where multiple team members are arguing. Instead of reacting, she takes a moment to breathe deeply, observe her emotions, and then speaks calmly to de-escalate the tension.

What mindfulness skill is Priya demonstrating?

- A. Multitasking under pressure
- B. Emotional suppression
- C. Non-judgmental awareness
- D. Avoidance of conflict

Select the correct option(s).

You said:

B, C, D Is my answer is correct?

ChatGPT said:

Thanks for your answer! Let's break it down:

Correct Answer: C. Non-judgmental awareness

Explanation:

- **C. Non-judgmental awareness** is correct — Priya observes her emotions without reacting immediately. This is a key aspect of mindfulness.
- **B. Emotional suppression** is **incorrect** — she is not *suppressing* her emotions but acknowledging them and responding thoughtfully.
- **D. Avoidance of conflict** is **incorrect** — she isn't avoiding; she's actively engaging to calm the situation.

Your score so far: 0 / 1

ChatGPT said:

Great! Let's keep the momentum going 🔄

Question 2: Emotional Intelligence & Self-Awareness

Scenario:

During a feedback session, Rahul receives criticism from his manager about his recent presentation. He feels a wave of frustration but chooses to focus on what he can learn from the feedback rather than reacting defensively.

Which elements of emotional intelligence is Rahul exhibiting?

(MSQ – Multiple Select Question)

- A. Self-regulation
- B. Motivation
- C. Social awareness
- D. Self-awareness

Select all that apply.

You said:

A, B and D

ChatGPT said:

Nice choice! Let's see how you did:

Correct Answers: A. Self-regulation, B. Motivation, D. Self-awareness

Explanation:

- **A. Self-regulation** – ✓ Rahul controls his emotional response instead of reacting impulsively.
- **B. Motivation** – ✓ He focuses on personal growth, indicating intrinsic motivation.
- **D. Self-awareness** – ✓ He's aware of his frustration and manages it mindfully.
- **C. Social awareness** – ✗ This involves understanding others' emotions, which isn't highlighted in this scenario.

Your score: 1 / 2

You're picking up pace now! Let's hit **Question 3** 

Question 3: Empathy vs Sympathy

Scenario:

An intern in your team shares that they're feeling overwhelmed and anxious about handling multiple tasks. You say, "That sounds tough. I've been through similar situations before. Let's go through your tasks together and see how I can help."

What are you demonstrating?

- A. Sympathy
- B. Empathy
- C. Pity
- D. Problem-solving skills

Select the correct option(s).

You said:

B

ChatGPT said:

Great choice! Let's check your answer.

Correct Answer: B. Empathy

Explanation:

- **B. Empathy** –  You are acknowledging their struggle, relating to their feelings, and offering support.
 - **A. Sympathy** –  Sympathy is feeling sorry for someone but not necessarily understanding or sharing their emotions deeply.
 - **C. Pity** –  Pity often implies a sense of looking down on someone, which is not the case here.
 - **D. Problem-solving skills** –  While you are offering help, the core aspect here is emotional connection, not just solving the issue.
-

Your score: 2 / 3

You're doing great! Ready for **Question 4?**

ChatGPT said:

Awesome! Let's go 

Question 4: Compassion in Leadership

Scenario:

Your teammate, Raj, has been struggling with personal issues and is unable to meet deadlines. Instead of reprimanding him, you arrange a private conversation, express concern for his well-being, and offer flexible deadlines to support him.

Which leadership quality are you displaying?

- A. Strict accountability
- B. Compassionate leadership
- C. Result-driven mindset
- D. Emotional detachment

Select the correct option(s).

You said:

B

ChatGPT said:

Bang on! 

Correct Answer: B. Compassionate leadership

Explanation:

- **B. Compassionate leadership** –  You're showing concern for Raj's well-being and adjusting expectations based on empathy and care.
- **A. Strict accountability** –  This would involve rigidly holding Raj to deadlines.
- **C. Result-driven mindset** –  A results-only focus might ignore personal challenges.

- **D. Emotional detachment** – ✗ Quite the opposite of what's happening here!
-

Your score: 3 / 4

 Solid answers so far. Let's roll into **Question 5**.

Question 5: Time Management Challenge

Scenario:

You have five important tasks to complete today. You estimate that three of them are urgent and require deep focus. To tackle this, you decide to schedule focused work blocks in the morning and handle lighter tasks in the afternoon when your energy dips.

What time management method are you applying?

- A. Eat That Frog Technique
- B. The Pomodoro Technique
- C. The Eisenhower Matrix
- D. Energy-based planning

 **Choose the correct option.**

You said:

A

ChatGPT said:

Not quite! Let's break it down.

✗ **Incorrect Answer: A. Eat That Frog Technique**

✓ **Correct Answer: D. Energy-based planning**

Explanation:

- **D. Energy-based planning** – ✓ You are structuring your tasks based on your natural energy levels, focusing on deep work when your energy is highest and lighter tasks when it dips.

- **A. Eat That Frog Technique** – ✗ This involves tackling the hardest or most important task *first thing in the day*, but here, the focus is on energy levels rather than difficulty.
 - **B. The Pomodoro Technique** – ✗ This uses short bursts of work with breaks, but your approach is about scheduling tasks around energy levels.
 - **C. The Eisenhower Matrix** – ✗ This is about prioritizing tasks based on urgency and importance, not energy management.
-

Your score: 3 / 5

You're doing well! Let's sharpen that focus for **Question 6**. 

Question 6: Observational Skills & Electric Thinking

Scenario:

You're attending a global conference on innovation. While others focus on just the speaker, you also observe audience reactions, take notes on presentation styles, and analyze how cultural backgrounds influence interactions.

Which skill are you demonstrating?

- A. Peripheral observation
- B. Tunnel vision
- C. Electric thinking
- D. Selective attention

Choose the correct option(s).

You said:

A

ChatGPT said:

Nice choice! Let's check your answer.

Correct Answer: A. Peripheral observation

Explanation:

- **A. Peripheral observation** – ✓ You are paying attention to not just the speaker but also audience reactions, body language, and cultural influences. This is a key skill in situational awareness.
 - **B. Tunnel vision** – ✗ This would mean focusing only on the speaker and missing the bigger picture.
 - **C. Electric thinking** – ✗ This isn't a recognized concept in cognitive skills. Perhaps you meant *eclectic thinking*, which is about drawing insights from various sources.
 - **D. Selective attention** – ✗ This means focusing only on a specific part of the environment while ignoring everything else, which is not happening here.
-

Your score: 4 / 6

You're bouncing back! Ready for **Question 7?** 

You said:

ChatGPT said:

Great! Let's dive into the next challenge.

Question 7: Diversity & Inclusion at Work

Scenario:

You are leading a team with diverse cultural backgrounds. During a brainstorming session, you notice that some team members from hierarchical cultures hesitate to speak up in front of senior colleagues. To encourage participation, you introduce an anonymous idea-sharing platform where everyone can contribute freely.

Which principle of Diversity & Inclusion are you applying?

- A. Psychological safety
- B. Equal opportunity
- C. Meritocracy
- D. Workplace compliance

Choose the correct option.

You said:

B

ChatGPT said:

Not quite! Let's go over it.

✗ Incorrect Answer: B. Equal opportunity

✓ Correct Answer: A. Psychological safety

Explanation:

- **A. Psychological safety** – ✓ You are creating an environment where employees feel safe to share their ideas without fear of judgment. This is a key element in inclusive workplaces.
 - **B. Equal opportunity** – ✗ This refers to fair access to roles, promotions, and benefits, not necessarily about fostering open communication.
 - **C. Meritocracy** – ✗ Meritocracy is about rewarding people based on performance rather than background, which isn't the focus here.
 - **D. Workplace compliance** – ✗ Compliance ensures legal and ethical standards, but it doesn't directly relate to encouraging open discussions.
-

Your score: 4 / 7

You're still doing well! Let's push forward to **Question 8.** 🚀

Question 8: Global Culture & Adaptability

Scenario:

You've been assigned to work with a Japanese client. You notice that your usual direct communication style doesn't work well, and your emails seem too blunt. You decide to adopt a more formal tone, use indirect phrasing, and show more patience in discussions.

Which cultural adaptation strategy are you using?

- A. Cultural intelligence
- B. Ethnocentrism
- C. Assertive leadership
- D. Microaggressions

 Choose the correct option.

You said:

A

ChatGPT said:

100 Correct! 

 **Correct Answer: A. Cultural intelligence**

Explanation:

- **A. Cultural intelligence** –  You are adjusting your communication style based on the cultural norms of your Japanese client, showing cultural adaptability.
- **B. Ethnocentrism** –  This is when someone believes their own culture is superior, which is the opposite of what you're doing.
- **C. Assertive leadership** –  While leadership can be assertive, this scenario is about adapting communication, not leadership.
- **D. Microaggressions** –  Microaggressions are subtle, often unintentional discriminatory remarks, which are not relevant here.

Your score: 5 / 8

You're improving! Let's jump into **Question 9.** 

Question 9: Working at a Client Location

Scenario:

You're working at a client's office in Germany. Your local colleagues expect strict punctuality and prefer detailed, agenda-driven meetings. You adjust your work habits to align with their expectations, ensuring you arrive on time and provide structured meeting agendas.

What are you demonstrating?

- A. Cultural adaptation
- B. Workplace assertiveness

- C. Process automation
- D. Client negotiation skills

 **Choose the correct option.**

You said:

A

ChatGPT said:

100 Correct! 

 **Correct Answer: A. Cultural adaptation**

Explanation:

- **A. Cultural adaptation** –  You are adjusting your behavior to fit the cultural norms of the German workplace, which is essential for building strong professional relationships.
- **B. Workplace assertiveness** –  Assertiveness is about confidently expressing your thoughts, but this scenario is about adapting to a different culture.
- **C. Process automation** –  This relates to using technology to streamline work, which is not relevant here.
- **D. Client negotiation skills** –  You're not negotiating; you're adapting to existing expectations.

Your score: 6 / 9

You're back on track! Ready for **Question 10?** 

You said:

yes

ChatGPT said:

Awesome! Let's keep going! 

Question 10: Mentoring Juniors & Self-Growth

Scenario:

You are mentoring a new junior team member. Instead of just giving direct answers, you ask them thought-provoking questions to help them analyze problems and find solutions on their own. Over time, they become more confident and independent in handling tasks.

Which mentoring approach are you using?

- A. Directive mentoring
- B. Coaching-based mentoring
- C. Micromanagement
- D. Authoritative mentoring

Choose the correct option.

You said:

B

ChatGPT said:

Correct!

Correct Answer: B. Coaching-based mentoring

Explanation:

- **B. Coaching-based mentoring** – You are guiding the junior team member by asking questions and helping them develop their problem-solving skills instead of just giving direct answers.
- **A. Directive mentoring** – This involves giving clear instructions and direct solutions, rather than encouraging independent thinking.
- **C. Micromanagement** – This would mean overly controlling their work, which is not happening here.
- **D. Authoritative mentoring** – This would involve imposing your views and decisions rather than fostering independent learning.

Your score: 7 / 10

You're on fire! Let's jump into **Question 11**.

Question 11: Professional Networking Basics

Scenario:

You attend a business conference and strategically introduce yourself to key professionals in your industry. You actively listen, exchange business cards, and follow up with a LinkedIn connection request the next day.

Which networking best practice are you following?

- A. Building rapport and follow-up
- B. Transactional networking
- C. Passive networking
- D. Cold outreach

Choose the correct option.

A is correct

Question 12: Overcoming Barriers in Networking

Scenario:

Vikram is naturally introverted and finds it difficult to start conversations at networking events. To overcome this, he prepares a few open-ended questions in advance and actively listens to others before responding.

Which networking barrier is Vikram addressing?

- A. Lack of confidence
- B. Lack of preparation
- C. Fear of rejection
- D. Over-reliance on digital networking

Choose the correct option.

40

You said:

A

ChatGPT said:

Correct! ✓

Correct Answer: A. Lack of confidence

Explanation:

- **A. Lack of confidence** – ✓ Vikram is proactively working on his conversation skills to overcome his hesitation and discomfort in networking.
 - **B. Lack of preparation** – ✗ He *is* preparing in advance, so this is not the barrier he's facing.
 - **C. Fear of rejection** – ✗ While this can be a barrier, the scenario focuses more on confidence-building rather than fear of rejection.
 - **D. Over-reliance on digital networking** – ✗ The issue here is about in-person networking, not digital interactions.
-

Your score: 9 / 12

Question 13: Expanding Your Professional Network

Scenario:

Anjali is looking to expand her professional network beyond her current industry. Instead of only attending industry-specific events, she starts joining cross-industry forums, engages in online communities, and collaborates with professionals from different fields.

Which networking strategy is Anjali using?

- A. Niche networking
- B. Cross-industry networking
- C. Superficial networking
- D. Internal networking

 **Choose the correct option.**

4o

You said:

B

ChatGPT said:

100 Correct! ✓

✓ Correct Answer: B. Cross-industry networking

Explanation:

- **B. Cross-industry networking** – ✓ Anjali is actively expanding her connections beyond her industry by engaging in diverse professional communities.
- **A. Niche networking** – ✗ This focuses on deepening connections within a specific industry, whereas Anjali is branching out.
- **C. Superficial networking** – ✗ This refers to forming weak or insincere connections, which isn't the case here.
- **D. Internal networking** – ✗ Internal networking is about building relationships *within* an organization, but Anjali is connecting externally.

Question 14: Building Internal & External Social Media Capital

Scenario:

Suresh regularly shares industry insights on LinkedIn, engages with thought leaders by commenting on

their posts, and participates in professional groups. Over time, he gains credibility and more professionals start reaching out to connect with him.

What aspect of networking is Suresh leveraging?

- A. Social media capital
- B. Personal branding
- C. Thought leadership
- D. All of the above

Choose the correct option.

40

You said:

D

ChatGPT said:

Correct!

Correct Answer: D. All of the above

Explanation:

- **A. Social media capital** – Suresh is using LinkedIn to build valuable professional relationships.
- **B. Personal branding** – By sharing insights and engaging with others, he is creating a strong professional identity.
- **C. Thought leadership** – His consistent engagement and knowledge-sharing establish him as a credible voice in his industry.
- **D. All of the above** – Since all three elements are involved, this is the best choice.

Question 15: Decision-Making in High-Stakes Situations

Scenario:

A manager has to choose between two suppliers for a critical project. One supplier is well-known but expensive, while the other is new but offers cost-effective solutions with promising reviews. The manager carefully analyzes past performance data, risk factors, and long-term benefits before making a final decision.

Which type of decision-making is the manager using?

- A. Intuitive decision-making
- B. Analytical decision-making
- C. Directive decision-making
- D. Escalation of commitment

Choose the correct option.

40

You said:

B

ChatGPT said:

Correct! ✓

Correct Answer: B. Analytical decision-making

Explanation:

- **B. Analytical decision-making – ✓** The manager is carefully evaluating data, risk factors, and long-term benefits before making a choice.
- **A. Intuitive decision-making – ✗** Intuition relies on gut feeling rather than data analysis, which is not the case here.
- **C. Directive decision-making – ✗** Directive decision-making is quick and based on authority, without much analysis.

- **D. Escalation of commitment** – ✗ This refers to continuing with a failing decision due to prior investment, which isn't happening here.

Your score: 12 / 15

Great! Let's keep the momentum going! 🚀

Question 16: Collaborative Decision-Making

Scenario:

Your company is launching a new product, and the leadership team wants input from different departments. Instead of making the decision alone, you organize a meeting with representatives from marketing, sales, and R&D to discuss ideas, weigh risks, and finalize the best approach together.

Which decision-making style are you using?

- A. Autocratic decision-making
- B. Collaborative decision-making
- C. Directive decision-making
- D. Availability bias

Choose the correct option.

40

You said:

B

ChatGPT said:

100 Correct! ✓

✓ **Correct Answer: B. Collaborative decision-making**

Explanation:

- **B. Collaborative decision-making** – ✓ You're involving multiple departments in the decision-making process, ensuring different perspectives are considered.
 - **A. Autocratic decision-making** – ✗ This would mean making the decision alone without consulting others.
 - **C. Directive decision-making** – ✗ This is a top-down approach where a leader gives direct orders instead of gathering input.
 - **D. Availability bias** – ✗ This refers to relying too much on easily available information rather than analyzing all relevant data, which isn't the issue here.
-

Your score: 13 / 16

Question 17: Common Biases in Decision-Making

Scenario:

A manager hires a candidate because they went to the same university and share similar interests, even though another candidate had better qualifications. The manager believes the first candidate will be a better fit simply because of their common background.

Which cognitive bias is at play here?

- A. Anchoring bias
- B. Confirmation bias
- C. Overconfidence bias
- D. Similarity bias

Choose the correct option.

40

You said:

D

ChatGPT said:

 Correct! 

 **Correct Answer: D. Similarity bias**

Explanation:

- **D. Similarity bias** –  The manager is favoring a candidate because they share similar backgrounds and interests, rather than focusing on objective qualifications.
- **A. Anchoring bias** –  This happens when someone relies too much on initial information, which isn't the issue here.
- **B. Confirmation bias** –  This occurs when someone looks for information that supports their preexisting beliefs, but the manager here is just favoring similarity.
- **C. Overconfidence bias** –  Overconfidence bias happens when someone overestimates their ability or judgment, which is not the main problem here.

Your score: 14 / 17

You're doing fantastic! Ready for **Question 18?**

yes

ChatGPT said:

Great! Let's keep pushing forward. 

Question 18: Overcoming Bias in Decision-Making

Scenario:

A project manager is choosing between two vendors. Initially, they prefer Vendor A because they have worked with them before. However, they decide to set aside their preference and objectively compare both vendors based on cost, quality, and reliability before making a final decision.

Which strategy is the project manager using to reduce bias?

- A. Hindsight bias
- B. Data-driven decision-making
- C. Escalation of commitment
- D. Randomness error

Choose the correct option.

40

You said:

B

ChatGPT said:

Correct! ✓

Correct Answer: B. Data-driven decision-making

Explanation:

- **B. Data-driven decision-making – ✓** The project manager is relying on objective data (cost, quality, and reliability) rather than personal preference, which helps in reducing bias.
- **A. Hindsight bias – ✗** This occurs when someone believes they "knew it all along" after an event has occurred, which is not the case here.
- **C. Escalation of commitment – ✗** This happens when someone sticks to a poor decision because of past investments, but the manager here is reassessing the choice.
- **D. Randomness error – ✗** This is the tendency to see patterns in random events, which is unrelated to this scenario.

Your score: 15 / 18

You said:

yes

ChatGPT said:

Awesome! Let's level it up with **Question 19.** 🤖

Question 19: Hindsight Bias

Scenario:

After a project's failure, a team member says, *"I knew this wouldn't work from the start."* However, during the planning phase, they supported the idea and never raised concerns.

Which bias does this statement reflect?

- A. Anchoring bias
- B. Hindsight bias
- C. Availability bias
- D. Confirmation bias

Choose the correct option.

40

You said:

B

ChatGPT said:

100 Correct! ✓

Correct Answer: B. Hindsight bias

Explanation:

- **B. Hindsight bias** – ✓ This is the tendency to believe, after an outcome is known, that it was predictable—even when it wasn't. The team member is showing this by claiming they "knew it all along."
- **A. Anchoring bias** – ✗ This is about over-relying on the first piece of information encountered.

- **C. Availability bias** – ✗ This involves relying on information that's most recent or easily recalled.
 - **D. Confirmation bias** – ✗ This is the tendency to seek information that confirms existing beliefs.
-

Question 20: Anchoring Bias

Scenario:

During salary negotiations, a candidate first mentions ₹10 lakhs as their expected CTC. Even though the recruiter had a range in mind, they can't help but base their offer around ₹10 lakhs, even if the role might justify more.

Which bias is the recruiter demonstrating?

- A. Anchoring bias
- B. Overconfidence bias
- C. Escalation of commitment
- D. Similarity bias

Choose the correct option.

4o

You said:

A

ChatGPT said:

100 Correct! ✓

✓ **Correct Answer: A. Anchoring bias**

Explanation:

- **A. Anchoring bias** – ✓ The recruiter is influenced by the first number mentioned (₹10 lakhs) and uses it as a reference point, even though better options may exist.
- **B. Overconfidence bias** – ✗ That's when someone has excessive confidence in their decisions or knowledge.
- **C. Escalation of commitment** – ✗ This involves sticking with a failing decision due to previous investments.
- **D. Similarity bias** – ✗ This is about favoring people who are like us, which doesn't apply here.

Question 21: Emotional Intelligence & Mindfulness

Scenario:

During a stressful team meeting, Priya notices her heart racing and her mind becoming overwhelmed. She takes a deep breath, grounds herself in the moment, and responds calmly instead of reacting impulsively.

Which emotional intelligence skill is Priya demonstrating through mindfulness?

- A. Self-awareness
- B. Empathy
- C. Motivation
- D. Social skills

 Choose the correct option.

40

You said:

A

ChatGPT said:

 Correct! 

 **Correct Answer: A. Self-awareness**

Explanation:

- **A. Self-awareness** –  Priya is consciously recognizing her emotional state and using mindfulness to stay composed. That's a clear sign of emotional intelligence through self-awareness.
- **B. Empathy** –  That's about understanding others' emotions, not your own.
- **C. Motivation** –  While it's an EI component, this scenario is more about managing emotion, not drive.
- **D. Social skills** –  These involve handling relationships and social dynamics, which isn't the focus here.

Your score: 18 / 21

Question 22: Empathy vs. Sympathy

Scenario:

Your colleague is going through a tough time due to a personal loss. Instead of just saying, *"I'm sorry to hear that,"* you sit down with them, listen without judgment, and offer your support in a way that validates their emotions.

What are you demonstrating in this situation?

- A. Sympathy
- B. Compassion
- C. Empathy
- D. Passive concern

Choose the correct option.

40

You said:

C

ChatGPT said:

Correct!

Correct Answer: C. Empathy

Explanation:

- **C. Empathy** – You're connecting with the person on an emotional level, listening actively, and understanding their feelings without trying to fix or minimize them.
- **A. Sympathy** – That would be more like expressing pity without deeply connecting to their emotional experience.
- **B. Compassion** – Compassion involves empathy **plus** a strong desire to take action to help, which isn't clearly shown here.
- **D. Passive concern** – That's a more distant or surface-level reaction, which doesn't apply.

Your score: 19 / 22

Question 23: Compassion in Leadership

Scenario:

Ravi, a team lead, notices one of his team members has been unusually quiet and underperforming. Instead of reprimanding them, he checks in privately, listens with understanding, and offers flexible work hours to help them cope with personal challenges.

What leadership quality is Ravi demonstrating?

- A. Sympathy
- B. Emotional detachment
- C. Compassion
- D. Assertiveness

Choose the correct option.

40

You said:

C

ChatGPT said:

100 Correct! ✓

Correct Answer: C. Compassion

Explanation:

- **C. Compassion** – ✓ Ravi not only understands his team member's struggles but takes supportive action — that's compassion in leadership.
- **A. Sympathy** – ✗ Sympathy is feeling sorry for someone without necessarily taking action.

- **B. Emotional detachment** – ❌ That would mean distancing oneself emotionally, the opposite of what Ravi is doing.
 - **D. Assertiveness** – ❌ Assertiveness is standing up for one's own needs or views, not the focus in this case.

ChatGPT said:

✗ **Not quite!** But great effort — let's break it down.

Correct Answer: D. Inclusive leadership

Explanation:

- **D. Inclusive leadership** – ✓ You're ensuring everyone's voice is heard and valued, creating a space where diversity thrives — that's inclusion in action.
- **A. Cultural assimilation** – ✗ That's when individuals are expected to conform to the dominant culture, which reduces true diversity.
- **B. Groupthink** – ✗ This happens when a desire for consensus discourages critical thinking and diverse opinions.
- **C. Diversity without inclusion** – ✗ That's when you have diverse people but don't create an environment for them to contribute equally.

Your score: 21 / 26

Still a strong run! 🏆 Want to go for **Question 27?**

Let's do it! 🚀 Here's **Question 27**.

Question 27: Global Culture Awareness

Scenario:

While working on an international project, Anil avoids scheduling meetings during U.S. holidays and ensures his communication style is respectful of time zones and cultural norms.

What competency is Anil demonstrating?

- A. Professional networking
- B. Emotional detachment
- C. Cultural intelligence
- D. Servant leadership

Choose the correct option.

4o

You said:

C

ChatGPT said:

100 Correct! ✓

✓ **Correct Answer: C. Cultural intelligence**

Explanation:

- **C. Cultural intelligence** – ✓ Anil is showing sensitivity and adaptability to different cultural norms and practices, which is key in global teamwork.
- **A. Professional networking** – ✗ That's about building career-related connections, not necessarily cultural awareness.
- **B. Emotional detachment** – ✗ This means avoiding emotional involvement, which is not what's happening here.
- **D. Servant leadership** – ✗ That focuses on supporting and uplifting others as a leader, not specifically about cultural sensitivity.

Your score: 22 / 27 🎯

You're on fire! 🎯 Let's jump into **Question 28**.

Question 28: Working at Client Location

Scenario:

Rahul is deputed to work at a client's office in Germany. He makes an effort to understand their work culture, punctuality norms, and communication style. He adapts quickly, respects local customs, and builds rapport with the client's team.

What is the most accurate skill Rahul is demonstrating?

- A. Time management
- B. Cultural adaptability
- C. Professional networking
- D. Conflict avoidance

Choose the correct option.

4o

You said:

B

ChatGPT said:

100 Absolutely right! ✅

Correct Answer: B. Cultural adaptability

Explanation:

- **B. Cultural adaptability** – ✓ Rahul is adjusting to a new environment, respecting cultural norms, and building effective working relationships — a textbook case of cultural adaptability.
- **A. Time management** – ✗ While punctuality is part of it, this scenario is broader than just time handling.
- **C. Professional networking** – ✗ He's building rapport, but the focus here is on adjusting to culture, not expanding networks.
- **D. Conflict avoidance** – ✗ There's no indication of him avoiding conflicts; he's being proactive and inclusive.

Your score: 23 / 28 🎯

Let's gooo! ⚡ Here comes **Question 29**.

Question 29: Mentoring Juniors – Grow Yourself

Scenario:

Priya spends time mentoring junior employees in her team. While helping them grow in their careers, she gains new perspectives, sharpens her communication skills, and builds leadership qualities.

What best describes Priya's growth through mentoring?

- A. Delegation
- B. Self-promotion
- C. Mutual development
- D. Performance evaluation

Choose the correct option.

40

You said:

B

ChatGPT said:

✗ **Not quite!** But no worries — you're still on a strong run!

✓ **Correct Answer: C. Mutual development**

Explanation:

- **C. Mutual development** – ✓ Mentoring is a two-way street — while juniors grow with guidance, mentors also develop leadership, patience, and communication skills.
 - **A. Delegation** – ✗ That's about assigning tasks, not mentoring.
 - **B. Self-promotion** – ✗ That's more about showcasing your achievements for recognition — which isn't Priya's focus here.
 - **D. Performance evaluation** – ✗ That involves assessing employee performance, not mentoring.
-

Your score: 23 / 29

Question 30: Professional Networking – Overcoming Barriers

Scenario:

Despite being introverted, Raj attends networking events regularly. He prepares conversation starters in advance and follows up with new connections through LinkedIn to maintain professional relationships.

Which networking barrier is Raj actively working to overcome?

- A. Lack of social capital
- B. Fear of rejection
- C. Overconfidence bias
- D. Time constraints

 **Choose the correct option.**

4o

You said:

B

ChatGPT said:

 **Correct!** 

 **Correct Answer: B. Fear of rejection**

Explanation:

- **B. Fear of rejection** –  Raj is taking proactive steps to overcome his introversion and hesitation in networking, which directly addresses the fear of rejection.
- **A. Lack of social capital** –  That refers to not having enough connections or influence, but Raj is actively networking.
- **C. Overconfidence bias** –  This is about being too confident in one's decisions, which isn't the issue here.
- **D. Time constraints** –  The scenario doesn't mention time being a challenge for Raj.

Question 31: Professional Networking – Social Media Capital

Scenario:

Meera consistently shares valuable industry insights on LinkedIn, engages with professionals in her field, and participates in discussions. Over time, she gains a strong following and is recognized as an expert in her domain.

Which networking strategy is Meera using?

- A. Building external social media capital
- B. Escalation of commitment
- C. Passive networking
- D. Anchoring bias

Choose the correct option.

40

You said:

A

ChatGPT said:

Correct! ✓

Correct Answer: A. Building external social media capital

Explanation:

- **A. Building external social media capital** – ✓ Meera is actively engaging and growing her professional presence online, increasing her influence in her industry.
- **B. Escalation of commitment** – ✗ That's about continuing a failing decision due to past investment, which doesn't apply here.
- **C. Passive networking** – ✗ That would mean just observing or waiting for connections, whereas Meera is actively engaging.
- **D. Anchoring bias** – ✗ That's when people rely too much on the first piece of information they receive, which isn't relevant here.

Your score: 25 / 31 📊

Question 32: Decision Making – Common Biases

Scenario:

During a hiring process, a manager gives more weight to a candidate's first impression rather than their overall qualifications and performance in later interviews.

Which cognitive bias is influencing the manager's decision?

- A. Availability bias
- B. Hindsight bias
- C. Anchoring bias
- D. Overconfidence bias

Choose the correct option.

40

You said:

C

ChatGPT said:

100 **Correct!** ✅

Correct Answer: C. Anchoring bias

Explanation:

- **C. Anchoring bias** – ✅ The manager is overly influenced by the candidate's first impression, even when later information is available.

- **A. Availability bias** – ✗ That happens when people rely on the most readily available information, but this case is about a fixed initial judgment.
 - **B. Hindsight bias** – ✗ That's when people believe they "knew it all along" after an event has occurred.
 - **D. Overconfidence bias** – ✗ That's about being too confident in one's knowledge or decisions, which isn't the key issue here.
-

You're on a roll! 🎉 Let's dive into **Question 33**.

Question 33: Decision Making – Escalation of Commitment

Scenario:

A company has been investing heavily in a failing product for the past two years. Despite clear data showing declining sales and negative customer feedback, executives continue to pour money into marketing, believing they must recover their initial investment.

Which cognitive bias is influencing their decision?

- A. Confirmation bias
- B. Escalation of commitment
- C. Availability bias
- D. Hindsight bias

Choose the correct option.

40

You said:

B

ChatGPT said:

100 Correct! ✓

✓ Correct Answer: B. Escalation of commitment

Explanation:

- **B. Escalation of commitment** – ✓ The company keeps investing in a failing product due to their previous commitment, even when evidence suggests they should stop.
 - **A. Confirmation bias** – ✗ That would be if they only sought data that supported their belief in the product's success.
 - **C. Availability bias** – ✗ That applies when decisions are based on easily recalled information, but here, it's about sticking to past investments.
 - **D. Hindsight bias** – ✗ That's when people believe an outcome was predictable after it happened, which isn't the case here.
-

Question 34: Leadership Styles – Servant Leadership

Scenario:

As a leader, Ramesh prioritizes the needs of his team members above his own. He ensures they have the resources, support, and opportunities to grow professionally. His leadership approach fosters trust, collaboration, and high morale in the team.

Which leadership style is Ramesh demonstrating?

- A. Autocratic Leadership
- B. Democratic Leadership
- C. Servant Leadership
- D. Laissez-Faire Leadership

 **Choose the correct option.**

40

You said:

C

ChatGPT said:

Finished thinking.

100 **Correct!** 

 **Correct Answer: C. Servant Leadership**

Explanation:

- **C. Servant Leadership** –  Ramesh is putting his team's growth and well-being first, which is the essence of servant leadership.
- **A. Autocratic Leadership** –  That's a top-down, control-driven style, the opposite of what Ramesh is doing.
- **B. Democratic Leadership** –  While democratic leaders encourage team input, servant leadership focuses more on *supporting* and *developing* individuals.
- **D. Laissez-Faire Leadership** –  That's a hands-off approach with minimal supervision, which isn't the case here.

Your score: 28 / 34

Let's keep the streak alive! 🔄 **Question 35** coming up.

Question 35: Decision Making – Overconfidence Bias

Scenario:

A project manager refuses to consider risk assessments, believing their past experience guarantees success. Despite warnings from team members, they proceed with an aggressive timeline, leading to project delays and cost overruns.

Which bias is affecting the project manager's decision?

- A. Hindsight bias
- B. Overconfidence bias
- C. Confirmation bias
- D. Randomness error

Choose the correct option.

40

You said:

B

ChatGPT said:

Correct! ✓

Correct Answer: B. Overconfidence Bias

Explanation:

- **B. Overconfidence bias** – ✓ The project manager overestimates their abilities and ignores risks, assuming their past success guarantees future success.
- **A. Hindsight bias** – ✗ That's when people believe they "knew it all along" after an event happens.
- **C. Confirmation bias** – ✗ That's when someone only looks for information that supports their belief, but here, the manager is ignoring *all* risks.

- **D. Randomness error** – ✗ That happens when people see patterns in random events, which isn't the issue here.

Question 36: Time Management – Prioritization

Scenario:

Anita has a long to-do list, but she focuses first on urgent tasks that directly impact the company's revenue. She then moves on to important but less time-sensitive tasks, ensuring her day is productive.

Which time management principle is Anita using?

- A. Eisenhower Matrix
- B. Multitasking
- C. Parkinson's Law
- D. The 80/20 Rule

📝 **Choose the correct option.**

40

You said:

A

ChatGPT said:

🎯 **Correct!** ✅

✅ **Correct Answer: A. Eisenhower Matrix**

Explanation:

- **A. Eisenhower Matrix** – ✓ Anita is prioritizing tasks based on urgency and importance, which is exactly how the **Eisenhower Matrix** works.
 - **B. Multitasking** – ✗ That's handling multiple tasks at once, but Anita is prioritizing, not multitasking.
 - **C. Parkinson's Law** – ✗ This states that "work expands to fill the time available," which is unrelated here.
 - **D. The 80/20 Rule** – ✗ This is about **focusing on 20% of tasks that produce 80% of results**, but Anita is sorting by urgency and importance.
-

Question 37: Emotional Intelligence – Self-Awareness

Scenario:

During a stressful project, Vikram notices that he gets frustrated easily when deadlines are tight. Instead of reacting impulsively, he takes a deep breath, acknowledges his emotions, and adjusts his approach to stay calm and focused.

Which emotional intelligence skill is Vikram demonstrating?

- A. Empathy
- B. Self-awareness
- C. Social skills
- D. Motivation

Choose the correct option.

40

You said:

B

ChatGPT said:

100 Correct! 

 **Correct Answer: B. Self-awareness**

Explanation:

- **B. Self-awareness** –  Vikram is recognizing his emotions, understanding how they affect his actions, and adjusting his behavior accordingly.
- **A. Empathy** –  That's about understanding others' emotions, but Vikram is focusing on his own feelings.
- **C. Social skills** –  That involves effective communication and relationship management, which isn't the main focus here.
- **D. Motivation** –  That relates to inner drive and persistence, but Vikram is managing emotions, not motivation.

You're crushing it!  **Question 38** coming up.

Question 38: Diversity & Inclusion – Unconscious Bias

Scenario:

A hiring manager unknowingly favors candidates from the same university they attended, believing they are naturally more qualified. This leads to a lack of diversity in the hiring process.

Which type of bias is at play here?

- A. Availability bias
- B. Unconscious bias
- C. Hindsight bias
- D. Overconfidence bias

 Choose the correct option.

40

You said:

B

ChatGPT said:

 Correct! 

 Correct Answer: B. Unconscious bias

Explanation:

- **B. Unconscious bias** –  The hiring manager is unknowingly favoring candidates from their own university, leading to biased decision-making.
- **A. Availability bias** –  That's when decisions are based on easily recalled information, which isn't the issue here.
- **C. Hindsight bias** –  That's when people believe an outcome was obvious after it happened.
- **D. Overconfidence bias** –  That's about being too confident in one's own judgment, but this case is about **hidden** bias.

Question 40: Leadership Styles – Autocratic Leadership

Scenario:

Rahul is a manager who makes all major decisions without consulting his team. He expects employees to follow his instructions without questioning, believing that strict control leads to efficiency.

Which leadership style is Rahul demonstrating?

- A. Democratic Leadership
- B. Servant Leadership
- C. Autocratic Leadership
- D. Laissez-Faire Leadership

Choose the correct option.

40

You said:

C

ChatGPT said:

Correct! ✓

Correct Answer: C. Autocratic Leadership

Explanation:

- **C. Autocratic Leadership** – ✓ Rahul makes all decisions independently and expects employees to follow orders without input, which defines autocratic leadership.

- **A. Democratic Leadership** – ✗ That involves team participation in decision-making, which Rahul is not allowing.
 - **B. Servant Leadership** – ✗ Servant leaders prioritize the growth and well-being of their team, which is the opposite of Rahul's approach.
 - **D. Laissez-Faire Leadership** – ✗ That's a hands-off approach where employees make their own decisions, which doesn't match Rahul's strict control.

Question 41: Professional Networking – Overcoming Barriers

Scenario:

Priya struggles with networking because she feels shy in professional settings. To overcome this, she starts preparing conversation starters, attending small networking events, and gradually building confidence in her interactions.

Which barrier to networking is Priya working to overcome?

- A. Lack of time
- B. Fear of rejection
- C. Overconfidence
- D. Lack of social media presence

Choose the correct option.

40

You said:

B

ChatGPT said:

 Correct! 

 **Correct Answer: B. Fear of Rejection**

Explanation:

- **B. Fear of Rejection** –  Priya is hesitant to network due to shyness but is taking steps to build confidence and overcome her fear.
 - **A. Lack of Time** –  The issue here isn't time management but personal hesitation.
 - **C. Overconfidence** –  The opposite of Priya's situation—she lacks confidence, not excess of it.
 - **D. Lack of Social Media Presence** –  The scenario focuses on in-person networking struggles, not online presence.

Question 44: Time Management – Parkinson's Law

Scenario:

Rahul is given two weeks to complete a task that usually takes only three days. Instead of finishing early, he takes the entire two weeks, stretching out the work unnecessarily.

Which time management principle explains this behavior?

- A. Pomodoro Technique
- B. Parkinson's Law
- C. Time Blocking
- D. The 80/20 Rule

Choose the correct option.

40

You said:

B

ChatGPT said:

100 Correct! 

Correct Answer: B. Parkinson's Law

Explanation:

- **B. Parkinson's Law** –  This principle states that *"work expands to fill the time available for its completion."* Since Rahul was given two weeks, he stretched the task unnecessarily instead of finishing in three days.

- **A. Pomodoro Technique** – ✗ That's a time management method using short work intervals and breaks, which isn't the case here.
 - **C. Time Blocking** – ✗ That's a productivity method where specific time slots are assigned for tasks, which Rahul isn't using.
 - **D. The 80/20 Rule** – ✗ This suggests that 20% of efforts yield 80% of results, which doesn't apply to this situation.

Question 50: Professional Networking – Internal vs. External Networking

Scenario:

Sanjay regularly connects with colleagues across different departments within his company. He collaborates with them on projects, attends internal company events, and builds relationships with senior leaders.

What type of networking is Sanjay focusing on?

- A. External Networking
- B. Internal Networking
- C. Passive Networking
- D. Random Networking

Choose the correct option.

You said:

B

ChatGPT said:

Correct!

Correct Answer: B. Internal Networking

Explanation:

- **B. Internal Networking** – Sanjay is building relationships within his company by collaborating across departments and engaging with senior leaders.
- **A. External Networking** – That would involve connecting with professionals outside his organization.
- **C. Passive Networking** – That means waiting for connections to happen rather than actively engaging.
- **D. Random Networking** – That refers to networking without a clear strategy or goal, but Sanjay is being intentional.

Question 51: Decision Making – Confirmation Bias

Scenario:

A project manager strongly believes a particular software is the best solution for their team. When researching, they only focus on articles and reviews that support their opinion, ignoring any negative feedback or alternative options.

Which bias is influencing the project manager's decision?

- A. Anchoring Bias
- B. Hindsight Bias
- C. Confirmation Bias
- D. Randomness Error

Choose the correct option.

40

You said:

C

ChatGPT said:

100 Correct! ✓

✓ **Correct Answer: C. Confirmation Bias**

Explanation:

- **C. Confirmation Bias** – ✓ The project manager is only seeking information that supports their belief while ignoring opposing views.
 - **A. Anchoring Bias** – ✗ That happens when someone relies too much on the first piece of information they receive.
 - **B. Hindsight Bias** – ✗ That involves believing an outcome was predictable after it has already happened.
 - **D. Randomness Error** – ✗ That refers to mistakenly seeing patterns in random data, which isn't relevant here.

Question 52: Time Management – The 80/20 Rule (Pareto Principle)

Scenario:

Priya analyzes her daily tasks and realizes that 20% of her efforts are producing 80% of her results. She decides to focus more on high-impact tasks and delegate or minimize the rest.

Which time management principle is Priya applying?

- A. Pomodoro Technique
- B. The 80/20 Rule (Pareto Principle)
- C. Parkinson's Law
- D. Time Blocking

Choose the correct option.

40

You said:

B

ChatGPT said:

100 Correct! 

Correct Answer: B. The 80/20 Rule (Pareto Principle)

Explanation:

- **B. The 80/20 Rule (Pareto Principle)** –  This principle suggests that 80% of results come from 20% of efforts. Priya is focusing on the high-impact tasks that drive the most results.

- **A. Pomodoro Technique** – ✗ That involves breaking work into short intervals with breaks, which isn't the focus here.
 - **C. Parkinson's Law** – ✗ That states that "work expands to fill the time available," which is unrelated to Priya's approach.
 - **D. Time Blocking** – ✗ That involves scheduling specific time slots for tasks, but Priya is focusing on prioritization rather than scheduling.
-

Question 53: Leadership Styles – Autocratic Leadership

Scenario:

Ravi is a team manager who makes all key decisions on his own without consulting his team. He expects strict adherence to his instructions and discourages employees from questioning his decisions.

Which leadership style is Ravi demonstrating?

- A. Democratic Leadership
- B. Servant Leadership
- C. Autocratic Leadership
- D. Laissez-Faire Leadership

📝 **Choose the correct option.**

40

You said:

A

ChatGPT said:

✗ Incorrect.

The correct answer is **C. Autocratic Leadership**.

Explanation:

- **C. Autocratic Leadership** – ✓ Ravi makes decisions independently and expects employees to follow instructions without input, which is characteristic of autocratic leadership.
 - **A. Democratic Leadership** – ✗ This style involves team input and collaboration in decision-making, which isn't reflected in Ravi's approach.
 - **B. Servant Leadership** – ✗ That style focuses on prioritizing the well-being and growth of the team, which is not Ravi's focus here.
 - **D. Laissez-Faire Leadership** – ✗ This is a hands-off style where employees have a lot of autonomy, which is the opposite of Ravi's top-down approach.

Question 54: Empathy & Sympathy – Difference

Scenario:

Sarah is going through a tough time at work and shares her feelings with her colleague, John. Instead of offering advice, John listens actively, acknowledges her feelings, and expresses understanding without trying to fix the situation.

What quality is John demonstrating?

- A. Sympathy
- B. Empathy
- C. Emotional Intelligence
- D. Compassion

Choose the correct option.

4o mini

You said:

B

ChatGPT said:

100 Correct! ✓

Correct Answer: B. Empathy

Explanation:

- **B. Empathy** – ✓ John is understanding Sarah's emotions and experiences from her perspective without trying to fix or judge, which is the essence of empathy.
- **A. Sympathy** – ✗ Sympathy involves feeling pity or sorrow for someone else's misfortune, but John is not expressing pity; he's connecting emotionally.
- **C. Emotional Intelligence** – ✗ While empathy is part of emotional intelligence, the broader concept involves recognizing, understanding, and managing emotions in oneself and others.
- **D. Compassion** – ✗ Compassion goes beyond empathy by involving a desire to help someone who is suffering, which John isn't necessarily doing in this scenario.

Question 55: Working at Client Location – Professionalism

Scenario:

When working at a client's location, Pradeep makes sure to be on time, dress professionally, maintain clear communication, and understand the client's goals thoroughly. He adapts to the client's working environment and follows their protocols.

What is Pradeep demonstrating in this scenario?

- A. Professional Networking
- B. Client-Centric Approach
- C. Work-Life Balance
- D. Cultural Intelligence

 **Choose the correct option.**

40 mini

You said:

D

ChatGPT said:

✗ Incorrect.

The correct answer is **B. Client-Centric Approach.**

Explanation:

- **B. Client-Centric Approach** – ✓ Pradeep is focusing on understanding the client's goals, adapting to their work environment, and maintaining professionalism, which demonstrates a client-centric approach.
 - **A. Professional Networking** – ✗ While networking is important, the scenario is about working directly with a client and adapting to their needs.
 - **C. Work-Life Balance** – ✗ That's about managing personal and professional life, which isn't the focus of this scenario.
 - **D. Cultural Intelligence** – ✗ While adapting to a client's environment could involve cultural awareness, the main focus here is on the client's needs and approach.

Question 56: Mentoring Juniors – Grow Yourself

Scenario:

Ravi regularly mentors his junior colleagues by providing them with constructive feedback, guidance on their career paths, and helping them improve their skills. He also takes time to reflect on how mentoring improves his own leadership abilities.

What is Ravi demonstrating through this?

- A. Transactional Leadership
- B. Self-Awareness
- C. Servant Leadership
- D. Growth Mindset

 **Choose the correct option.**

40 mini

You said:

D

ChatGPT said:

100 Correct! 

 **Correct Answer: D. Growth Mindset**

Explanation:

- **D. Growth Mindset** –  Ravi is focused on improving both his junior colleagues and himself, which aligns with a growth mindset—believing that abilities and intelligence can develop through effort and learning.
- **A. Transactional Leadership** –  Transactional leadership focuses on exchanges between leaders and followers (e.g., rewards for good performance), but Ravi is more focused on long-term development.
- **B. Self-Awareness** –  While Ravi is reflecting on his own growth, the main focus is his mindset toward development, which is a growth mindset.
- **C. Servant Leadership** –  Servant leadership emphasizes serving others, but Ravi’s focus on his own growth alongside mentoring highlights a growth mindset.

Question 57: Types of Leadership – Laissez-Faire Leadership

Scenario:

Kiran, a team leader, takes a hands-off approach with her team, allowing them to make their own decisions and manage their tasks without much interference. She provides minimal direction and trusts her team to perform independently.

Which leadership style is Kiran demonstrating?

- A. Democratic Leadership
- B. Autocratic Leadership
- C. Laissez-Faire Leadership
- D. Transactional Leadership

Choose the correct option.

40 mini

You said:

C

ChatGPT said:

Correct! ✓

Correct Answer: C. Laissez-Faire Leadership

Explanation:

- **C. Laissez-Faire Leadership – ✓** Kiran is allowing her team to manage their tasks and make decisions independently, which is a key trait of laissez-faire leadership.
- **A. Democratic Leadership – ✗** That style involves team participation in decision-making, which isn't reflected here.
- **B. Autocratic Leadership – ✗** That involves making decisions unilaterally and directing the team, which is the opposite of Kiran's approach.
- **D. Transactional Leadership – ✗** This involves focusing on rewards and penalties based on performance, which isn't happening in this scenario.

Question 58: Decision Making – Intuitive Decision Making

Scenario:

Nina has been in the industry for many years and has developed a strong gut instinct about what strategies will work. When faced with a critical decision, she trusts her intuition, based on her previous experiences, rather than relying on extensive data analysis.

Which type of decision-making is Nina using?

- A. Analytical Decision Making
- B. Directive Decision Making
- C. Intuitive Decision Making
- D. Conceptual Decision Making

Choose the correct option.

40 mini

You said:

C

ChatGPT said:

100 Correct! ✓

✓ **Correct Answer: C. Intuitive Decision Making**

Explanation:

- **C. Intuitive Decision Making** – ✓ Nina is relying on her gut feeling and experience rather than formal analysis or data, which is characteristic of intuitive decision-making.
- **A. Analytical Decision Making** – ✗ This would involve relying on data and detailed analysis to make decisions, which Nina is not doing here.

- **B. Directive Decision Making** – ✗ This involves making decisions quickly and with little input from others, but Nina is using her intuition based on experience, not on speed.
 - **D. Conceptual Decision Making** – ✗ That involves focusing on long-term goals and broader ideas, whereas Nina is relying on her immediate intuition.

Question 59: Time Management – Parkinson's Law

Scenario:

Ajay is given a week to complete a project. He initially plans to spend 2 days on the task, but as the deadline approaches, he finds himself working more hours to finish everything, even though the work could have been completed sooner.

Which time management principle does this scenario illustrate?

- A. The 80/20 Rule (Pareto Principle)
- B. Parkinson's Law
- C. Time Blocking
- D. Pomodoro Technique

Choose the correct option.

40 mini

You said:

B

ChatGPT said:

100 Correct! ✔️

✓ **Correct Answer: B. Parkinson's Law**

Explanation:

- **B. Parkinson's Law** – ✓ This law states that "work expands to fill the time available for its completion." Ajay is taking longer than necessary to finish the project simply because he has more time.
- **A. The 80/20 Rule (Pareto Principle)** – ✗ This principle suggests that 80% of results come from 20% of efforts, which isn't the case in this scenario.
- **C. Time Blocking** – ✗ Time blocking involves scheduling specific periods for tasks, which isn't reflected here.
- **D. Pomodoro Technique** – ✗ This technique involves working in short, focused intervals with breaks, but Ajay isn't using that method.

Your score: 52 / 59 🏆

You've made it to the final question! 🎉 **Question 60** coming up!

Question 60: Types of Leadership – Servant Leadership

Scenario:

Priya, a manager, focuses on serving the needs of her team. She supports her employees' personal and professional development, prioritizes their well-being, and creates an environment where they feel valued and heard.

Which leadership style is Priya demonstrating?

- A. Laissez-Faire Leadership
- B. Servant Leadership

- C. Autocratic Leadership
- D. Democratic Leadership

 **Choose the correct option.**

4o mini

You said:

B

ChatGPT said:

100 Correct! 

 **Correct Answer: B. Servant Leadership**

Explanation:

- **B. Servant Leadership** –  Priya is focusing on serving her team's needs, supporting their growth, and prioritizing their well-being, which is the hallmark of servant leadership.
- **A. Laissez-Faire Leadership** –  That style involves being hands-off and giving employees complete autonomy, which is not what Priya is doing.
- **C. Autocratic Leadership** –  Autocratic leadership involves making decisions without team input, which contrasts with Priya's supportive approach.
- **D. Democratic Leadership** –  This style involves team involvement in decision-making, but it doesn't focus on serving the team's needs like servant leadership.

Your final score: 53 / 60 

You did an incredible job!   You've completed the full set of questions! Well done!
